

RÉSUMÉ · OCTOBER 2026

TOMAS VYKOUKAL

Senior BI Consultant · Trainer · Software Architect

tomas@vykoulkal.com | +49 176 50 717 828 (Germany)
+420 776 733 848 (Czech Republic) | Born 1975

Professional Profile

Senior consultant with more than 20 years of experience in IT and business consulting, specialising in business intelligence, data warehouse development and software architecture. Proven expertise in complex data-management projects, relational and multidimensional databases, and ETL implementation. Oracle Database 11g Data Warehouse Certified Implementation Specialist since 2012; experienced trainer at the OPITZ CONSULTING Training Center. Since 2022, increasingly focused on software architecture, supported by iSAQB CPSA-F certification and project experience.

Core Competencies

Business Intelligence & Data Warehousing

Database Development & Data Modelling

Oracle · SQL · PL/SQL

ETL/E-LT & Data Migration

Software Architecture & System Design

Enterprise Consulting & Training

AI/ML Integration

Professional Experience

Senior BI Consultant & Trainer · OPITZ CONSULTING Deutschland GmbH

February 2012 – Present

Work across all phases of BI and data warehouse projects: presales support, prototyping and tender support; business, system and code analysis and solution design; ETL implementation and production rollout; client training, knowledge transfer, ongoing support and end-to-end consulting. Trainer at the OPITZ CONSULTING Training Center (SQL, PL/SQL and Oracle Database).

Selected clients: Federal Employment Agency, Messe München, Hugo Boss, telecommunications provider, State Office for Central Police Services Duisburg (LZPD), Daimler AG, Deichmann SE and Bavarian State Office for Statistics.

BI Consultant · Cubeware GmbH, Germany

July 2011 – January 2012

BI Consultant · MIK AG, Germany

November 2006 – June 2011

BI Consultant & Translator · Konzulta Brno, Czech Republic

December 2002 – December 2006

Certification Consultant · ADA Brno, Czech Republic

October 2002 – May 2006

Education

Diplom-Ingenieur (Dipl.-Ing.), Business Informatics

October 1995 – October 2001

Faculty of Business and Economics, Mendel University in Brno, Czech Republic. Exchange semester, Faculty of Commerce and Faculty of Computer Science, University College Cork, Ireland (January–June 2001).

Professional focus: translating demanding business and regulatory requirements into reliable data platforms, analytical solutions and well-documented software.

Technical Expertise & Specialisations

TOMAS VYKOUKAL · ENGLISH RÉSUMÉ · OCTOBER 2026

Confidential · References available upon request

Data Warehouse & Business Intelligence

- Design of multi-tier data warehouse architectures
- Dimensional modelling: star and snowflake schemas
- Data Vault modelling and implementation
- Advanced DWH techniques: SCD2, historisation and materialisation
- OLAP and multidimensional databases
- Standard and ad hoc reporting

Database Development & Data Management

- Oracle Database (11g, 12c, 19c): modelling, programming and administration
- PL/SQL and SQL performance tuning
- ETL/E-LT implementation and optimisation
- Cross-platform migration (Informix to Oracle; ODI to PL/SQL)
- Database security and GDPR-compliant data protection

Software Architecture (since 2022)

- Architecture design and system design
- CI/CD processes and DevOps practices
- Layered architecture and design patterns
- Requirements management and security analysis

Technology & Toolset

DATABASES

Oracle Database (11g–19c), Informix, Snowflake, Microsoft SQL Server

ETL & INTEGRATION

Oracle Data Integrator (ODI), PL/SQL, Agile Analytics, MID Innovator

BI FRONT ENDS

Pyramid Analytics, Microsoft Power BI, Oracle BI Suite, Cubeware

DEVELOPMENT & PROGRAMMING

Java (Spring Boot, Spring AI), Kotlin, Python, T-SQL, PL/SQL, VBA

INFRASTRUCTURE & DEVOPS

Git, GitHub, GitLab, Maven, Jenkins, Docker, Rancher, Jira, Confluence, Bamboo

AI & MACHINE LEARNING

Spring AI, SAP Predictive Analytics, modern AI frameworks, semantic search and NLP integration

INDUSTRIES & DOMAINS

Transport & logistics · telecommunications · retail (fashion and sporting goods) · automotive · pharmaceuticals · public administration · statistics · media · software · financial services

Selected Project Case Studies

TOMAS VYKOUKAL · ENGLISH RÉSUMÉ · OCTOBER 2026

Confidential · References available upon request

01 · AI Document Processing Platform

OPITZ CONSULTING Deutschland GmbH · April 2026–Present · Software · Developer

Developing an AI-based document-processing pipeline using Spring AI and modern AI frameworks, including a semantic testing system for AI-supported employee search and an analytical operations front end.

Contribution: Co-designed and administered semantic search tests; designed and built the analytical operations front end; developed new MCP tools for employee availability; extensively applied a range of AI models to solution design, development and documentation.

Technology: Spring AI, Java, modern AI models, semantic text processing.

02 · Federal Employment Agency — TRESOR Privacy Data Warehouse

Federal Employment Agency (Bundesagentur für Arbeit) · July 2024–October 2025 · Public administration · Statistics & data protection

Comprehensive data-protection project to bring the BI system into compliance with GDPR Articles 5 and 17. Implemented organisational, technical and procedural safeguards, rolling deletion, protection of identifying data and data versioning. Ensured compliance with Federal Commissioner for Data Protection and Freedom of Information (BfDI) requirements while preserving statistical analytical capability.

Role & contribution: Oracle Database Developer and story engineer; analysed, estimated and delivered business and technical stories; analysed data and optimised data-management workflows; database programming and developer testing; incident, problem and change handling; deployment, documentation, and support to business users and operations.

Technology: Oracle Database, proprietary DWH framework, Oracle Data Integrator, MID Innovator. **Methods:** Agile software development, Scrum, iterative delivery.

03 · Hugo Boss BI Showcase — Retail Dashboards & Analytics

OPITZ CONSULTING Deutschland GmbH · November–December 2025 · Fashion retail · Data Analyst & Front-End Developer

Presales showcase in Pyramid Analytics for a leading fashion group. Built introductory dashboards and themed deep-dive analyses using synthetic fashion retail sales data, incorporating weather data, seasonal patterns and regional characteristics.

Contribution: Developed a retail controlling dashboard; analysed data and built the model on Snowflake; conceived and designed the front end; created tabular and graphical visualisations.

Technology: Pyramid Analytics, Snowflake, SQL, data visualisation, weather data integration.

Selected Project Case Studies (continued)

TOMAS VYKOUKAL · ENGLISH RÉSUMÉ · OCTOBER 2026

04 · State Office for Central Police Services Duisburg — NRW Police Crime Statistics (VIVA)

Landesamt für zentrale polizeiliche Dienste (LZPD), Duisburg · September 2016–December 2021 · Public administration · Statistics

Rebuilt a complex data warehouse for North Rhine-Westphalia Police Crime Statistics, including an analytical reporting module. Applied advanced techniques: triple historisation (master data SCD2, transactional data SCD2 and structures), materialised reporting data with data versioning, and application-design best practices.

Role & contribution: DWH specialist, database developer, analyst and software architect; analysed data and requirements; designed and implemented a complex multi-tier DWH; developed database structures and ETL processes; built a data mart with advanced analytical functionality; established CI/CD practices across 18 releases; testing, knowledge transfer and documentation.

Technology: Oracle Database 12.1, Oracle XML DB, TOAD for Oracle, MS Excel with VBA. **Methods:** Iterative V-model with agile elements, multi-tier DWH design.

05 · Messe München — DWH Restructuring & Power BI Migration

Messe München GmbH · February–April 2026 · DWH Developer

Restructured and rebuilt the data warehouse and migrated the reporting infrastructure to Power BI. Analysed, collaboratively delivered and tested change requests.

Technology: Microsoft Power BI, Microsoft SQL Server, datasqill.

06 · Telecommunications Provider — ODI-to-PL/SQL Migration (Emergency Solution)

Telecommunications provider · January–February 2026 · PL/SQL Developer

Delivered a time-critical migration from Oracle Data Integrator (ODI) to a modern ETL approach. Automated conversion of ODI load flows into PL/SQL procedures to maintain operational continuity after ODI shutdown.

Contribution: Analysed existing ODI load flows; automated migration to PL/SQL procedures; co-designed SQL/PL/SQL artefacts; tested and validated the solution.

Technology: Oracle Data Integrator, PL/SQL, Agile Analytics.

Selected Project Case Studies (continued)

TOMAS VYKOUKAL · ENGLISH RÉSUMÉ · OCTOBER 2026

Confidential · References available upon request

07 · Deichmann SE — PL/SQL Development (Customs EDI Module)

Deichmann SE · July 2021–June 2022 · Sporting goods retail · Customs/EDI

Supported the customs department during the transition of the merchandise management system to EDI-AES Release 3.0 for electronic customs communications.

Role & contribution: Senior Software Developer and Senior Consultant; analysed, designed and built object-based data interfaces; semi-automated script and documentation generation using MS Excel VBA; ongoing quality assurance; mentored new colleagues; BPMN modelling.

Technology: Oracle Database 19.0, PL/SQL, TOAD for Oracle, Confluence, MS Excel with VBA automation.

08 · Daimler AG — HR Data Hub / Reporting Hub

Daimler AG · June–August 2016 · Automotive · HR data warehouse

Consolidated master and transactional employee data from multiple sources for SAP BW through a multi-tier DWH (History / Stage–Cleanse–Raw–Business–View).

Role & contribution: DWH specialist and ODI developer; co-designed the Data Vault layer, developed database structures for the multi-tier DWH, and built layer-by-layer ODI load flows.

Technology: Oracle Data Integrator 12.1, Oracle Database 11g, Jira. **Methods:** Data Vault, multi-tier DWH, Agile.

09 · BORS Břeclav — Enterprise-Wide BI Solution (Six Years' Support)

BORS Břeclav, a.s., Czech Republic · May 2005–May 2011 · Transport & logistics · Finance & controlling

Delivered an enterprise-wide BI solution: three-tier financial reporting (general ledger → standard reporting → financial analysis), multi-level planning with manual data entry, and expansion to additional accounting and business areas. Included an Excel front end and reporting portal, with long-term support through staff changes.

Role & contribution: BI Consultant and Project Manager; full project lifecycle; controlling-process analysis and design; ETL/data management in collaboration with ERP suppliers; user-friendly Excel front-end development.

Technology: MIK-OLAP, MIK-ONE, MIK-XLR, Microsoft Excel. **Methods:** DWH design, dimensional modelling, prototyping.

10 · Bavarian State Office for Statistics — 2021 Census

Bayerisches Landesamt für Statistik, Fürth · June 2022–November 2023 · Public administration · Process development

Worked as Software Architect in the household-generation subproject of the 2021 Census.

Technology: Java EE, Oracle Database 19c, Git, Atlassian stack (Jira, Bamboo, Confluence), Maven. **Methods:** CI/CD, layered architecture, automated testing.

Certifications & Professional Development

Date	Certification / Training
May 2022	iSAQB CPSA-F — Certified Professional for Software Architecture, Foundation Level
January 2013	Trainer Certification — Oracle Database 11g: Professional Introduction to SQL (INSTRUCTOR score: 94.67%)
October 2012	Oracle 11g Database Data Warehouse — Certified Implementation Specialist
October 2002	General Navision Axapta Diploma (93%)

Competency Levels

Scale: 1 = Fundamentals to 4 = Expert

Knowledge Domains

Database development	4/4
Data modelling	4/4
Data engineering	4/4
DWH & analytical architectures	4/4
SQL performance tuning	4/4
Data migration	4/4
Documentation	4/4
Software architecture	3/4
Data science	3/4
Quality assurance & test management	3/4
Architecture design	3/4
DevOps	2/4
AI / ML	2/4
Agile consulting	2/4
Project management	2/4

Programming Languages

Oracle PL/SQL	4/4	Database programming, ETL, performance tuning
SQL	4/4	Queries, modelling, analysis
Java	3/4	Spring Boot, Spring AI, architecture
Kotlin	2/4	Modern JVM development
JavaScript	2/4	Front end, visualisation
T-SQL	2/4	Microsoft SQL Server
VBA	2/4	Excel automation
Python	2/4	Data science, scripting

Databases & Persistence

Oracle Database (11g–19c)	4/4
Microsoft SQL Server	1/4
Informix DB	1/4
Snowflake (cloud DWH)	1/4

Methods & Frameworks

Data migration & performance tuning	4/4
Data Vault modelling	3/4
Architecture design	3/4
Security analysis	3/4
Oracle performance tuning	3/4
Agile software development & Scrum	2/4
BPM & Balanced Scorecard	2/4
Requirements management	1/4

Infrastructure & Operating Systems

Microsoft Windows	4/4
Linux	1/4
Unix	1/4
Docker & containers	1/4
Rancher	1/4

Development Tools & Platforms

TOMAS VYKOUKAL · ENGLISH RÉSUMÉ · OCTOBER 2026

Confidential · References available upon request

Database & SQL

Oracle SQL Developer (4/4) · TOAD for Oracle (4/4) · Oracle Data Modeler (3/4) · DBeaver (2/4)

BI & Analytics

Pyramid Analytics (2/4) · Power BI (2/4) · Oracle BI Suite (2/4) · Grafana (2/4)

Version Control & CI/CD

Git (3/4) · GitHub (2/4) · Bamboo (1/4) · Maven (1/4)

IDEs & Editors

IntelliJ IDEA (3/4) · Visual Studio Code (2/4)

Atlassian Stack

Confluence (3/4) · Jira (3/4)

ETL & Integration

Oracle Data Integrator (ODI) (3/4) · MID Innovator (2/4) · Agile Analytics

Additional: Oracle BI Publisher, Total Commander, MS Office

Languages

Language	Level	Proficiency
German	4/4	Native / business fluent
English	4/4	Fluent / business proficient
Czech	4/4	Native / business fluent
Russian	2/4	Basic knowledge
Polish	2/4	Basic knowledge
French	1/4	Basic

Core Strengths

- Analytical thinking:** structured problem analysis and solution development in complex situations.
- Communication & presentation:** confidently communicates technical content to diverse audiences.
- Precision & quality:** high standards for code, documentation and deliverables.
- Independence & initiative:** self-directed work and proactive improvement.
- Resilience & flexibility:** performs under pressure in time-critical situations.
- Trainer & mentor:** committed to knowledge transfer and staff development.
- Entrepreneurial mindset:** holistic perspective on business requirements and technical solutions.
- Travel readiness:** regular client visits and on-site project work.

Additional Information

Current position: Senior BI Consultant & Trainer, OPITZ CONSULTING Deutschland GmbH
Availability: By arrangement
References: Available upon request

Experienced in international teams and European markets (DACH, Central and Eastern Europe); regular client training and knowledge transfer; active in technical innovation projects (AI, cloud and modern architecture); committed to continuous professional development and certifications.
