PROFESSIONAL SUMMARY

Senior Business Intelligence & Analytics Consultant and **Trainer** with 20+ years of experience designing enterprise-grade data strategies and scalable analytical frameworks. Proven track record of transforming fragmented operational data into widely adopted executive dashboards and self-service BI governance models. Adept at aligning cross-departmental stakeholders and bridging the gap between complex engineering pipelines and C-suite objectives to accelerate international decision-making.

CORE TECHNICAL COMPETENCIES

Data Analytics & Visualisation: Pyramid Analytics, Grafana, Power BI, Oracle BI and others
Data Engineering: Oracle, Snowflake, ETL/ELT pipelines (ODI, PL/SQL and others), BPMN, IDEs (IntelliJ IDEA, VS Code, TOAD for Oracle, DBeaver and others)
Languages & Databases: SQL (Oracle 11g–19c, PostgreSQL, SQL Server, Informix), PL/SQL, Performance Tuning, Advanced Excel & VBA, Web (HTML, CSS), XML/XSD/XSL, Java EE
AI & LLM: Full AI-aided, spec-driven design, development, and documentation workflows
Methodologies & Governance:

- Data Analysis & Modelling (Relational, Star/Snowflake, Data Vault)
- DWH Design (Multitier, Historisation, Materialisation)
- Dashboard Design (Standard and Ad-Hoc Reporting, KPI Governance)
- Software Architecture (DDD, Java Patterns)
- Infrastructure & DevOps (Jira, Confluence, Git, GitHub, GitLab, Maven, Bamboo)
- Prototyping, Agile/Scrum, Kanban

PROFESSIONAL EXPERIENCE

Developer — OPITZ CONSULTING Deutschland | Nuremberg, Germany | *2026*

- In a **fully AI-aided manner** co-developed an AI platform for harnessing intra-company information sources (incl. Java programming and MCP sourcing).
- In a **fully AI-aided manner** designed, implemented, and deployed professional monitoring dashboards effectively **bridging the tool knowledge gap and cutting the development process to 2 days per dashboard**.

PL/SQL Developer — NetCologne, Germany | Cologne, Germany | *2026*

- Worked in a team to migrate dozens of ETL pipelines from ODI to PL/SQL to **meet a tight deadline** for the ODI licence decommissioning.

Senior Developer & Consultant — Deichmann SE | Essen, Germany | *2021–2022*

- Worked with the customs department to upgrade the inventory management to a new data exchange format utilising PL/SQL.
- Automated script and documentation generation utilising Excel formulas and VBA, **boosting developer productivity by 2/3 and minimising error rates**.

Analyst, DWH Specialist, DB Developer — LZPD NRW (Police North Rhine-Westphalia) | Duisburg, Germany | *2016–2021*

- Architected and implemented a next-generation solution for sourcing, computing, storing, and reporting the official German police criminal statistics, **encompassing up to 140,000 individual report sheets**, **boosting reporting capacity by 15 %** (39 to 45 official reports) and **reducing generation time by 85 %** (7 days to 1 day).
- Implemented complex statistical computations for edge cases (age limits, offence gravity etc.)
- Designed and implemented advanced DWH techniques (multi-tier architecture, bi-temporal data logic, manifold historisation SCD2, data materialisation and versioning, data-driven dynamic PL/SQL code generation) and best practices in programming, **expanding reporting capabilities from strictly pre-defined to near ad-hoc**.
- Designed and implemented structures and workflows incl. script-based CI/CD and staff training, **delivering a streamlined self-service solution**.

BI & ODI Developer — Bundesagentur für Arbeit (Federal Employment Agency) | Nuremberg, Germany | *2015–2016*

- Analysed and migrated complex ETL pipelines from Linux shell scripts on Informix to ODI on Oracle, **ensuring the seamless operation of existing business logic in the modernised environment**.

BI/DWH Specialist, Trainer — Kabel Deutschland Vertrieb und Service GmbH | Berlin, Germany | *2015*

- Migrated monitoring reports from Oracle Information Publisher 11g to Oracle BI Publisher 12c and designed new ones in the target environment, giving the customer **deeper insight, improved troubleshooting, and a stronger ROI**.
- Designed and led Oracle BI Publisher workshops for the department staff.

Oracle SQL and PL/SQL Trainer — OPITZ CONSULTING Deutschland | Gummersbach, Germany | *2012–2016*

- Co-designed and led training courses for external participants with an **instructor score of up to 95 %** based on customer feedback.

Helpdesk Specialist — Audi AG | Ingolstadt, Germany | *2006–2010*

- Worked in a team on a rota basis to **support users, streamline operations and develop up to 15 OLAP databases across 3 production sites**.
- Automated daily routines, **reducing related workload by 90 % and increasing operational security** (backups, logs etc.).

BI Consultant — BORS Břeclav | Břeclav, Czech Republic | *2005–2010*

- Partnered closely with C-suite and Controlling to architect a BI enterprise reporting solution, **cutting staffing costs for enterprise reporting by 60 %** (down from 5 to 2 days).
- Architected and deployed a self-service BI enterprise solution consolidating accounting and operational data across all cost centres, **enabling the customer to granularise the analysis from 6 divisions to 20 cost centres** and **refine the profitability analysis "from Euro to Euro cent"**.
- Designed both the accounting and non-accounting parts of the system, with the chart of accounts as the core structure hierarchically aggregating into modular standard reporting, Czech GAAP reporting, intra-company reporting, financial analysis indicators, and bankruptcy models.
- Implemented a multi-step planning mechanism with manual data entry into the same data structure, incl. seamless comparison with external entities (competitors).

BI Consultant — Aramark | Prague, Czech Republic | *2004–2007*

- Partnered closely with C-suite and Controlling to design executive-facing OLAP models, **boosting data-driven analysis and strategic decision velocity**.
- Automated a P&L and balance sheet reporting package produced for HQ at regular intervals, **saving 2/3 of the staffing cost for reporting** (manual work down from 15 to 5 days a month).
- Accommodated customer-specific corporate reporting principles (reporting by business year vs. source accounting period, data consolidation, ETL relational data warehouse for cleansing and materialisation, manual entry of plan figures, currency conversion, modular Standard Reporting Package Lines, VAT reporting).
- Combined OLAP objects to model specific corporate indicators.

PERSONAL QUALITIES

Analytical, Logical & Structured • Precise, Calm & Goal-Oriented • Exceptionally Reliable • Independent & Thorough • Strong Communication and Presentation • Fast Learner, Embraces New Technologies (incl. AI) • Dedicated & Loyal • Collegial & Client-Focused

EDUCATION & CERTIFICATIONS

Master of Science (M.Sc.) in Business Informatics — Mendel University Brno, Czech Republic
Visiting European — Faculties of Commerce and Computer Science, University College Cork, Ireland
Professional Credentials: iSAQB Certified Professional for Software Architecture – Foundation Level • Oracle 11g Database Data Warehouse Certified Implementation Specialist • Trainer for Oracle Database SQL and PL/SQL
Languages: Czech & Slovak: native • English, German: fluent • Polish, Ukrainian, Russian: basic • French: basic (currently improving)

Information current as of September 2026
